### ASRS News

#### **Group Meetings & Seminars help you plan for your retirement**

Our Member Services Division offers a series of Group Meetings and Seminars designed for members thinking about retirement within the next year to five years. Group Meetings are designed for those planning to retire within a year, while Seminars are designed for those thinking about retiring within the next five years. Valuable planning information is provided at both. Please be sure to let your employees know that if they're contemplating retirement, these meetings are available! A complete list is posted on the Calendar section of our website.

### Legislation Update

On April 29, the House voted 33-19 to extend the session to May 14, and the Senate approved the same extension by voice vote. With the adjournment deadline set by rules having passed (it was April 24, the Saturday of the week of the 100<sup>th</sup> day of session) and leadership having exhausted its authority for a one-time one-week extension, all future extensions will require a majority vote in both chambers. Leadership has also extended the conference committee deadline to May 14; this is an internal deadline and does not require a formal vote.

On the budget front, the Senate produced its budget package on May 4 to the greater body. The Senate Appropriations committee passed out roughly 20 budget bills, which were subsequently sent to caucus and the floor. The press has reported that in the House, leadership reaction thus far to the bipartisan Senate budget package was less than enthusiastic. Speaker of the House Jake Flake was reported to have said, "It's more money than I wanted to spend. I think we need to tone it down a little."

The last agency bill remaining is HB2029 (ASRS; service purchase; cost). The House of Representatives have concurred with the Senate amendments to HB2029 and the next stop for this bill could be final read.

Please review the Quick Reference below for more details.
